Teeing Area Rule

What is the procedure if a player makes a stroke from the teeing area, clips the ball so that it dribbles off the tee peg but the ball does not clear the teeing area markers that define the front of the teeing area?

(Answer from Andrew Robb at Golf NSW)

"Whether it is stroke play or match play, anytime the player is allowed to or required to play from the teeing area, the player is allowed to tee the ball up. There is no penalty, the original stroke counts though."

Kiama - Mollymook Challenge

Kiama will host the second round of this keenly contested competition on Monday December 1. A good field has been signed up to play with the Kiama contingent ready to retain the coveted trophy.
